

Indemnity Bond Authorization and Process

By Anna Von Reitz

This afternoon I am issuing an Authorization Letter that will allow members of our Assemblies to claim their exemptions guaranteed by the Private Registered Indemnity Bond which I established to protect the States of the Union and the assets of the people living within their borders: AMR100001 RA 393-427-640 US.

We presume that the reasonable and customary international common law governing trade and commerce applies and that your claims of exemption and your guarantees will be honored, either directly under the indemnity bond, or as debt swaps (Mutual Offset Credit Exchange Exemptions).

I am asking each Assembly to designate an Officer responsible for affirming the eligibility of the individual members seeking protection. That Officer should attach a brief signed affirmation and contact information for the Assembly, saying that the individual is a member of the Assembly and is naturally eligible to claim exemption and guarantee under the indemnity bond.

An unsigned copy of the Letter of Authorization is being attached to this for your interest; a signed jpeg scan of the letter will be made available this afternoon. Please use the signed jpeg to send with your Assembly-level affirmation and specific mortgage details.

This is to be regarded as an insurance claim. Please treat it accordingly. Those who can continue to pay the mortgages assigned to them should do so to avoid any controversy, knowing that more general relief will be available in the near term as our banks come online.

I am sorry but with everything else we have to contend with, there isn't staff or time available to further assist at this time.

Granna
