

Letter of Authorization

U.S. Treasury Department

July 2nd 2025

To Whom These Presents Come:

I am the originator and author and beneficiary of the following Private Registered Indemnity Bond, AMRI00001 RA 393 427 640 US lodged with the U.S. Treasury (1789). My intent in establishing this Private Indemnity Bond was to insure the public and private interests of the individual States of the Union and the people living within their borders against False Claims in commerce issued against their assets on the basis of hypothecated and merely presumed to exist public franchise debts.

Now, therefore, I am issuing this Letter of Authorization allowing the intended beneficiaries of this Private Indemnity Bond to discharge any and all public franchise debts assessed against their assets in the form of commercial mortgages, municipal taxes, and similar obligations of public origin. This is a direct claim and application of their exempt status as affirmed by their State Assembly officers (see attached).

Please process their discharge of these public debts as provided for by Public Law and by Federal Code which guarantees their private and public exemption under this Indemnity Bond and which otherwise provides for the application of debt swaps known as Mutual Offset Credit Exchange Exemptions to be applied in their favor.

In pursuit of these lawful and legal purposes in good faith and in honor, I am in possession of the Fiduciary Management of The United States and The United States of America (Unincorporated) and I have created and approved the use of this Private Registered Indemnity Bond as a sovereign Guarantor under International law, acting to preserve and protect the physical assets and material interests of our sovereign nation-states and people:

Approved and Authorized by my hand and seals:
